CONCEPTUALIZATION: defined composition and scope of the paper
METHODOLOGY: built, designed and tested rig assembly
METHODOLOGY: designed and delivered rig components
METHODOLOGY: developed final behavioral task
METHODOLOGY: developed protocols for surgery, husbandry and animal training
METHODOLOGY: piloted candidate behavioral tasks
METHODOLOGY: standardized licenses and experimental protocols across institutions
SOFTWARE: developed data acquisition software and infrastructure
VALIDATION: maintained and validated analysis code
FORMAL ANALYSIS: analyzed data
INVESTIGATION: built and maintained rigs, performed surgeries, collected behavioral data
RESOURCES: hosted the research
DATA CURATION: curated data and metadata
WRITING - ORIGINAL DRAFT: wrote and curated the appendix protocols
WRITING - ORIGINAL DRAFT: wrote the first version of the paper
WRITING - ORIGINAL DRAFT: wrote the second version of the paper
WRITING - REVIEW AND EDITING: edited the paper
WRITING - REVIEW AND EDITING: revised the paper in response to peer review
VISUALIZATION: created data visualizations
VISUALIZATION: designed and created figures
SUPERVISION: managed and coordinated team
SUPERVISION: supervised local laboratory research
PROJECT ADMINISTRATION: managed and coordinated research outputs
FUNDING ACQUISITION: acquired funding
